

Brackets

Pre Fabricated Cantilever Bracket

Material specifications	
Material	Base Plate : S235 JR or equivalent steel Mounting Rail : DD11 or equivalent steel
Coatings	Galvanized, Hot-Dip Galvanized (HDG), Powder Coating*, Zinc Magnesium*

Applications

- Fastening light to medium-duty ventilation ducts, plumbing & firefighting pipes and cable trays as a cantilever support structure
- Supporting structures for suspended services
- Suitable for Trench and Tunnel application.

Features & Benefits

- Easy to install with less components
- Available in variable lengths (Upto 1.040 m) for supporting different services installations
- Serrated profiles ensures secured connections with the FXR Rail nut
